

COMPANY PROFILE

▶ HISTORY

EPA Corporation (Environmental Products Assessment) was established in 2024 to support businesses that consider the environmental impact of their products and services and to help improve the business environment. We promise to support businesses that are having trouble with GHG emission calculations and biomass energy in particular.

♥ BASIC CONCEPT

Our reviews, verifications, and audits provide guidance from various angles to help minimize potential risks for future business owners.

Our consultants will identify the best solutions to the problems you are facing and provide cost-effective advice.

🎯 THE SHAPE OF THE FUTURE

We will work with you to think about the best way to ensure your business is sustainable, and take the initiative in doing what needs to be done to minimize future corporate risks.

(Registered in Saitama Prefecture)

CONSULTATION MENU

Course A: Creation of manuals, procedures, etc.
Duration: Approximately 1 month

Course B: Course A + staff training, audit, check
Duration: Approximately 3 months

Course C: Course B + supervision of the inspection, everything from certification to certification acquisition
Duration: Approximately 6 months

In addition to these three courses, we also provide services with fees and consultation content according to your needs.

Are you having trouble with Type III environmental labels or SCOPE III?

Scope III is disclosed in securities reports, etc. We live in an age where a company's environmental impact is directly linked to its corporate value.

EPA Corporation has a team of experienced personnel to support your company's LCA.

CHOOSE US

WHY EPA?

The consultant in charge has extensive auditing experience at an auditing organization and is currently an auditor engaged in audit work.

In other words, we are well-versed in the screening process and can provide consultation from the judges' perspective. We provide appropriate consultation by fully understanding the points that the judges are concerned about.

We also has long experience in management, making this a strong partnership that allows us to think about and act together regarding corporate risks.

If you are currently feeling that you are not seeing the results you expected, not getting the value for your money, or that you would like to hear the judges' honest opinions, please do not hesitate to contact us.
